

Only available from **TRUNORTH DECK**

TRUNORTH DECK is a non-wood based and PVC free composite utilizing rice hull fibers. Rice hulls contain approximately 20% opaline silica and lignin. This fiber is proven to be resistant to moisture penetration and is less likely to allow moisture to propagate mold or fungi.

We want your dream deck to
stand the test of time.

With **TRUNORTH DECK**, you get everything you want and more.

Why buy **TRUNORTH DECK** composite decking?

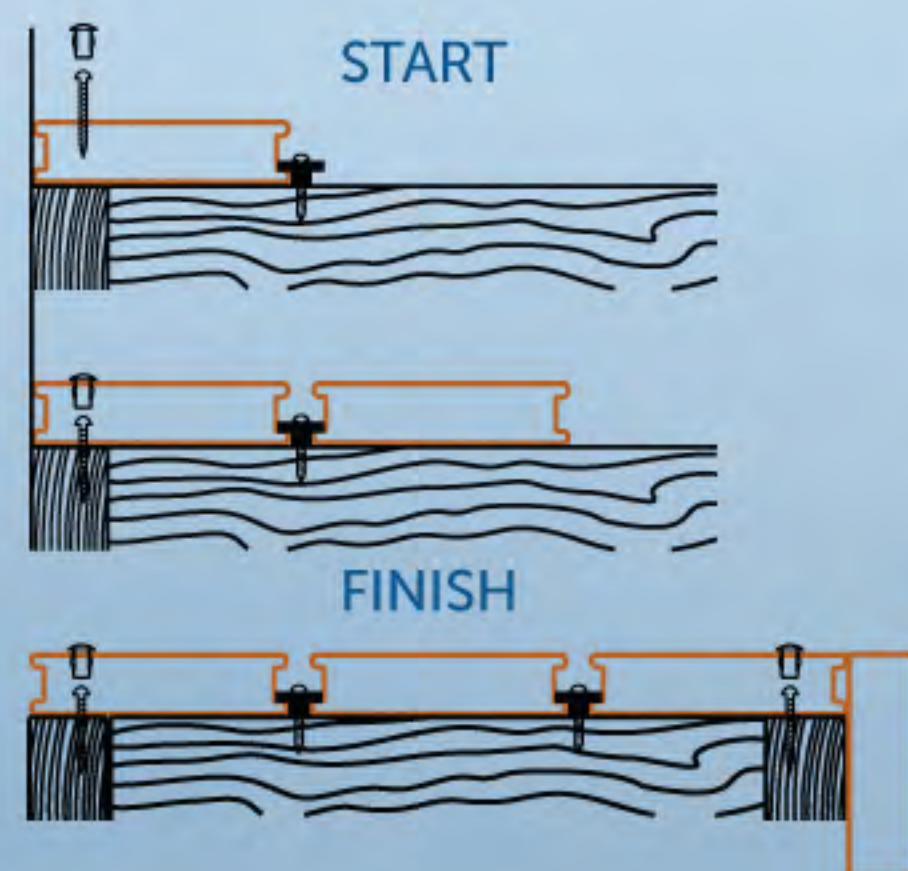

Wood grain on both sides enhances deck appearance (for overhead models) and allows you to flip the board over, rather than replace the board in the event of damage.

- Lifetime limited warranty
- Long lasting and durable
- No painting, staining or sealing
- No splinters, slivers or revealing nails
- No wood means it is resistant to rotting, mold, fungi and pests
- Simple Slide & Go® fastening system
- Certified to meet or exceed building code - CCMC, CCRR and ICC certified

Getting started is easy as...

- 1** Choose Your Deck Board Style and Colour
- 2** Match Fascia Boards and Hole Plugs with Deck Board Colour
- 3** Order and Review Installation Instructions Available Online

Installation made easy.

Get the finished professional look around your rim joist with our Fascia board.

Slide & Go® is a concealed fastening system for new decks or resurfacing.

Build your dream deck with **Canada's leading composite deck manufacturer.**
