We want your dream deck to stand the test of time.
Dreams turned into reality.

With our advanced rice hull composite, you aren’t simply replacing, you’re investing in a long lasting deck designed and built to save time, money, and the environment. What you get with TruNorth Decks:

- **Long lasting good looks** - Wood grain appearance that won’t fade or stain
- **Lower lifetime ownership cost** (start seeing your payback in as little as 2 years)
- **Ultra low maintenance** (no painting, staining or sealing)
- **No slivers, revealing nails or screws**

The **TRUNORTH DECK** Advantage

With TruNorth Deck, your personal outdoor oasis is within reach. Relax somewhere inspired by your unique vision and TruNorth’s patented, environmentally responsible, and North American made composite decking.

Located in Brantford, Ontario, our over 34 years of experience and technical expertise in the recycled plastic industry has proudly made us the only Canadian manufacturer of composites. This experience has led us to our proprietary rice hull capped product which is superior for durability and performance in the decking industry.

Since our entire manufacturing process is computer controlled and monitored, we know that every board we produce is produced to the highest quality standard possible. We oversee and control production so that shipment we send you is completed on time and with perfection.

3 simple steps to build your deck:

1. **Review and measure your deck’s size, shape and attached stairs.**
2. **Choose your colour with matching accent, or use the auto-match feature.**
3. **Order and review installation instructions online.**

Build with **confidence and sustainability**
Why buy **TRU\NORTH DECK** composite decking?

You want the best, and we deliver the best. TruNorth is the only company that offers non-wood based and PVC free capped rice hull composite decking. Our rice hull fiber composite is proven to resist water penetration which means your beautiful deck will not mold, rot, or swell. Since we encapsulate both sides, you have the comfort of knowing you can flip the boards over in the future if you damage them.

Our goal is to keep your outdoor escape looking great while being enjoyed by the whole family. Our proprietary capping helps keep your family safe from slips and slivers, prevent spilled liquids from leaving a permanent stain, reduces heat retention and minimizes fading from harsh weather.

We want to make sure that when you enjoy your deck outdoors, you also enjoy nature's beauty. For this reason, we hold ourselves to the highest standard to reduce our use of natural resources, like oil, and produce less greenhouse gases. We are proud to produce a sustainable product that uses 95% recycled materials.

The quality and durability of a **TRU\NORTH DECK** composite decking

This graph shows the true quality and durability of a TruNorth Deck. When tested against our competitors, we have been proven to maintain up to 5X – 8X more when tested against abrasive forces – only having lost 0.0231g of its original weight. Whatever Mother Nature has in store, we are ready for it! We guarantee the best quality decking suited for your unique backyard.

Keep your outdoor escape looking great.
TruEcono

If you’re looking for a fresh deck and also looking to stick to a strict budget, the TruEcono is your best option. With the same superior quality, durability and wood grain features, the TruEcono is our most economical selection available as it is hollow inside, and therefore, comprised of less material. Enjoy the ease of its hidden Slide & Go® fasteners for quick installation and certifications that meet USA building codes. Because this is our most affordable option, that doesn’t mean you get less quality. We use the same formula and capping as our best board, backed by our 25 year warranty for stain and fade.

**PREMIUM CAPPED COLOURS**

- Mocha
- Caramel
- Tigerwood
- Tropical Mahogany

**VARIEGATED CAPPED COLOURS**

- Ash Grey
- Brazilian Cherry
- AMAZON GREY
- Matte Brown

All boards are 5 1/8" x 15/16" and available in 12’, 16’ and 20’ lengths.

Accuspan

With design and simple installation in mind, building your dream deck has never been easier. These two solid core boards are both made with wood grain features. The Accuspan is available with a grooved edge making it compatible with hidden Slide & Go® fasteners for main deck surfaces. The Solid edge board is made for direct fastening on main surfaces, borders and stairs. Both are certified to meet Canadian and USA building codes and feature our best 25 years warranty for stain and fade so that your deck stays beautiful longer.

**PREMIUM CAPPED COLOURS**

- Mocha

- Brazilian Cherry
- AMAZON GREY
- Matte Brown

All boards are 5 1/8" x 15/16" and available in 12’, 16’ and 20’ lengths.

*Actual colours may vary slightly.*
Northern Lite

The Northern Lite boards, with square edges and no grooves, are perfect for decking when you want to surface screw the deck. They are more commonly used for trim, stair treads, feature boards, and picture framing patterns on TruEcono and Accuspan decks. The board is reversible and made from the same proprietary material as all other TruNorth Deck boards. Since the Northern Lite board has the same wood grain finish and colours, it is easy to include in any project. As with all TruNorth Deck boards, the Northern Lite board is certified to meet Canadian and USA building codes and features our best 25-year warranty for stain and fade.

2x6 Boards

Looking for a thicker and wider board? Our 2x6 boards are the perfect choice! With the same TruNorth Deck rice hull composite benefits, this board is not capped to provide an even greater slip resistant surface.

Construction Boards

These are boards made for ground contact and other building applications. They are made from 100% recycled plastic so they will not rot or absorb any water. They are great for ground contact at the bottom of stair stringers or as spacers on concrete surfaces. They are not a replacement for structural wood. We have many different formulas for different applications, so please inquire for recommendations to fit your needs.

Accessories

To masterfully finish your deck, we provide a complete line of accessories to trim and complete any type of installation and design.

Our Slide & Go® fastening clip system allows for easy installation and these great benefits:

- No visible screws
- Single boards can be removed, flipped, and adjusted if needed
- Reinforced plastic that never rusts
- Made to exactly fit our boards (not a universal clip that fits “just ok”)

Installation made easy

With our easy Slide & Go® fastening system, you will get the same finished professional look and quality without the time consuming hassle! Simply follow the instructions provided and you’ll be relaxing on your new deck in no time.
When you set out to make the industry’s most remarkable outdoor living space, there’s only one place to find inspiration: the outdoors. By looking at colours and textures found in nature, and combining that with our passion for innovation and technology, we’ve been able to create decking that has the look of real wood, but none of the problems that come with it. Outdoor living refined: Clubhouse Decking.

Limited Transferable Lifetime Performance Warranty
for unprecedented peace of mind.
25-Year Limited Fade & Stain Warranty
for unsurpassed assurance of beauty, year after year.

Entertain In Luxury; Escape In Supreme Comfort.

Clubhouse® Decking showcases nature in a dramatic departure from ordinary planks and drab details. Clubhouse Decking is the first of a new generation of PVC decking that incorporates advanced material science, world-class engineering, and patented performance manufacturing to produce a deck that is stunning in every kind of weather.

Incredible choice comes with Incredible beauty.

There’s a secret why Clubhouse® Decking shows so well at parties, get-togethers, and as an icon of neighborhood envy. It’s in the way our deep, rich colour is infused into each timber and the exclusive random graining process we created to mimic nature in its organic genius. And it’s also in a special bonus: our unique dual-colour, dual-embossed options on every board that allow you to create multiple looks with ease.

Innovation at Work, Genius at Play.

Show your smarts in a deck that will outperform and outlast without losing its beautiful, natural good looks. Clubhouse® has no wood or wood fillers to warp, rot or break down. But it does have a proprietary formulation that produces a super-dense structure that is impervious to water and provides dramatic strength and protection against impact. And Clubhouse is protected by an ingenious capstock technology that’s blended into a single-extrusion process for a stunning low-gloss, natural matte finish that resists oxidation, clouding, fading and staining far beyond outmoded composite or plain PVC decking.

Distinctive variegated grains that give you a truly unique, natural wood feel. Designed with variation in colour and patterns to allow for the most realistic replication of true hardwood decking.

Stylish solid shades that offer the look of painted wood without the need for maintenance... a light cleaning is all that is needed.

Colours shown are by a lithographic process and may vary from the actual product colour. Please see your Clubhouse Representative for actual colour samples.

At TruNorth Deck, we want every customer to feel excited and confident from the day they order their new deck to everyday when they step outside. To guarantee our remarkable decks, our products are tested in our industry leading quality assurance labs at both the recycling input stages, as well as final extrusion product testing lab. All of our product certifications are completed by an independent third party company, including the global leader, Intertek.

With our 25 year product warranty, you can depend on your deck looking perfect each time you step onto it. We know this because not a single warranty claim has been filed in the 10 years that TruNorth boards have been on the market. Plus, we have over 20 years of Technical Sales Support to help ensure proper installation.

We know that preserving our environment’s health is just as important to you as it is to us, which is why we have proudly developed a product that is comprised of 95% recycled material and established a production process that has reduced our oil consumption and greenhouse gas emissions. With our rice hull composite decking, every 10 ft. x 16 ft. sized deck recovers 6,000 plastic water bottles from the landfill. Together, let’s leave the trees in the forest.
